

DIGITAL TEACHING WORKSHOP 2009

INTEGRATING DIGITAL AUDIO AND VIDEO INTO TEACHING AND LEARNING

The theme of this year's Digital Teaching Workshop is "21st Century Literacies." Over the course of this workshop participants will develop a design plan and prototype for an episode of a podcast, vodcast or enhanced podcast. By completing this assignment and other learning activities, participants will develop greater understanding of how to effectively integrate digital audio and video into their courses as well as basic technical proficiencies. Upon completion of the workshop participants have the option of designing and creating a course guide video with the support of DMC consultants and OIT, Video Solutions staff.

The 2009 Digital Teaching Workshop is a collaboration of University Libraries staff, OIT, Digital Media Center trainers and consultants and Video Solutions and Application Support staff.

2009 AGENDA (DRAFT)

The workshop will be taught in a hybrid format. Half-day sessions that run from 9:00 a.m. – 12:00 p.m. will focus on recording and editing audio and video and on media selection. Sessions will focus on how to make the most of resources on campus, including iTunes U, the SMART Learning Commons, the Morrill Hall video studio, Media Mill and VideoANT. During time in between in-class meetings participants will work on their own projects and complete online learning activities.

To register see <http://dmc.umn.edu/digital-teaching>

MONDAY, JUNE 1

9:00 a.m. – 9:30 a.m.

Overview and Introductions

9:30 a.m. – 11:30 a.m.

Recording and Editing Audio

11:30 a.m. – 12:00 p.m.

Media Selection: Audio

The discussion about uses of digital audio will begin during this half hour session and continue online.

TUESDAY, JUNE 2

Participants will continue to explore uses of digital audio through online learning activities. Consultants will be available to meet with participants.
